

NETFLIX STOCK REPORT

By: Joe Foti

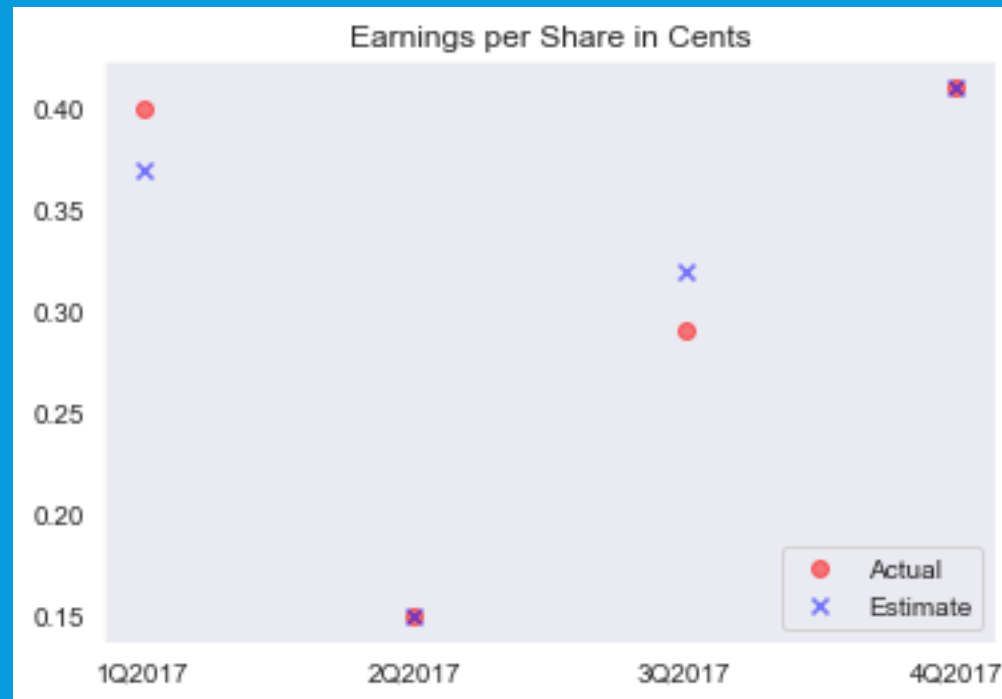

LIST OF VISUALIZATIONS

- For the visualization of the distribution of the stock prices for Netflix in 2017, I collected the data, selected the plots, chose violin plots to show the ebb and range in a fun way.
- For the visualization and summary of Netflix stock and revenue for the past four quarters and a summary I wanted to show how close our projections were to our actual share earnings. I collected data, used a scatter plot, and chose the design.
- For the visualization and brief summary of their earned versus actual earnings per share, I chose the plot, collected the data, and showed how much our earnings are vs. how much revenue we are bringing in.
- For the visualization of Netflix stock against the Dow Jones stock (to get a sense of the market) in 2017, we measured our performance against the market to get a sense of how we were doing relative to the rest of the Dow Jones.
